

For this trip we issued an electronic ticket (E-Ticket)

It is not printed on paper but has been saved in the airline reservation system.

Advantages:

You can't forget or lose this ticket. You don't need to go to the agency to modify or reimburse it, even if it's last minute (subject to tariff rules). Moreover, we can issue special negotiated rates until the very last minute on a growing number of destinations and airlines.

Boarding Card:

You will obtain your boarding card at the regular check-in desk by showing a valid ID or passport. Sometime, it's also possible to obtain it at a self-service machine (depending on airport and airline; for a first experience our agency or the airline will gladly give you more information).

In the USA, you will have to show a travel document before entering the airport. We therefore ask you to keep the enclosed passenger receipt with you during your all trip.

We wish you a very pleasant trip!
